Client challenges & opportunities

How Megantic will help

Has your **online growth** (traffic or revenue) declined, plateaued or reached a threshold?

Megantic can show you how to reach the next level of traffic & revenue growth through our full market strategy for organic search

Does your organic search channel deliver the **highest ROI**?

On average, Megantic can help you generate up to 35x ROI from organic search which is well above paid search averages at 7x ROI.

Do you want to grow your **organic search channel** revenue with a proven, long term growth strategy?

Megantic's strategy produces on average 100% growth after a year and 200% after 2 years.

Is organic search your **best performing channel** for online revenue?

Organic search is the largest channel online with the highest potential pool of customers and should equate to at least 52% of your total online traffic & revenue.

Do you have a **strong brand**?

A strong brand is perfect to leverage Megantics non-branded organic search strategy delivering new customers.

Do you have a large **product range** online?

The larger your product range offering, the more opportunity for revenue growth. A larger product range offering equals a broader keyword base to rank for on Google.

Are you planning a **website migration** in less than 6 months?

Megantic will partner with your developer to ensure revenue (not just data) is migrated

Have you **already migrated** and lost organic traffic?

STOP ..Talk to Megantic now as it's highly possible you have a failed migration and you've lost keywords positions to your competitors. The longer you leave this the harder it will be to recover.
